## 2. Authorized to Offer (A2O) Program

The Authorized to Offer AARP Medicare Plans program (A2O) has undergone some changes in 2016. The changes include the following:

The measurement period has changed from April through March of each year to now follow the calendar year of January through December. Quality Production Minimums have not changed for this year and remain the same at:

#### Level 1

From January through December of each year, agents must submit at least **five (5) accepted and paid sales of AARP Medicare Supplement Plans** to retain A2O Level 1 status. Agents who fail to attain the quality production minimum will be de-authorized from offering AARP Medicare Supplement Plans for 60 days.\*

During the de-authorization period, submitted AARP Medicare Supplement enrollment applications will not be considered commission-eligible. De-authorization status will be displayed on the certificate page on the agent portal. Agents will be listed as Level 1 status on the agent portal during the de-authorization period.

Active Level 1 agents with 100 or more AARP Medicare Supplement active members in their book of business at the end of the measurement period will not be de-authorized. If an agent does not meet the Level 1 quality production minimums for two consecutive years, he/she will be permanently de-authorized and will not be permitted to offer AARP Medicare Supplement Insurance Plans.

**Note:** Agents who are de-authorized can continue to offer AARP<sup>®</sup> MedicareComplete<sup>®</sup> and AARP<sup>®</sup> MedicareRx Plans, insured by UnitedHealthcare, during the de-authorization period.

#### Level 2

EDC and ICA agents who submit at least **thirty (30) or more accepted and paid sales of AARP Medicare Supplement Plans** from January through December of each year, and are certified to offer all three AARP-branded products (Medicare Supplement, Medicare Advantage and Part D Prescription Drug Plans) will be invited into A2O Level 2 status where they must complete one additional certification course to offer AARP-branded products called Mature Markets. Level 2 agents must maintain the Level 2 production minimum and certification requirements each year from January through December to continue using Level 2 materials.

ISR agents may complete the Mature Markets certification course for Level 2 status once they have at least one AARP-branded product certification completed.

Active Level 2 agents with 200 or more AARP Medicare Supplement active members in their book of business at the end of the measurement period will retain Level 2 status and will continue to have access to Level 2 A2O program materials.

### A2Oh! Rewards Program (New!)

Level 2 agents can now earn points towards cash rewards on commission-eligible and accepted AARP Medicare Supplement Insurance Plan and Select Plan applications for consumers over age 65. Eligible agents can earn as much as \$7,500 per year in cash rewards! And to honor top-performing sales success, in addition to earning cash payouts, Level 2 agents (who have 125 or more accepted and paid sales in their book of business for the calendar year) will also be eligible to earn a travel award! Based on the total number of accepted and paid sales during the qualification period, an agent may choose from packages like a romantic weekend in New Orleans; five-day/four-night trip for two to Napa, California; to a family getaway to Walt Disney World; to even a seven-day/six-night trip for two to Barcelona, Spain!

For complete details on this new exciting A2Oh! Rewards program, please reference the A2O program Guidelines.

#### Guidelines

For more information on A2O program rules and complete details on the new A2Oh! Rewards program, see the full A2O program guidelines, which can be found on the agent portal within the "Product Information and Materials" tab under "Authorized to Offer."

\*Agents may be subject to de-authorization at any time.

## 3. Enrolling Applicants through Online Enrollment

(information within the Enrolling Applicants section of the 2016 Producer Handbook)

#### **Online Enrollment**

#### What's New!

At UnitedHealthcare, we've made enrolling new members even easier. The AARP Medicare Supplement Online Enrollment tool, formerly known as **Smart***Enroll*, is now accessible through the UnitedHealthcare's Landmark Electronic Application Navigator (LEAN) tool. It's one more way we are working to simplify the AARP Medicare Supplement Insurance Plans sales process.

The AARP Medicare Supplement Online Enrollment tool within LEAN will continue to offer the same great features, like seeing potential rates immediately after entering basic member information, along with being compatible with tablets and the latest browsers.

We are also excited to announce a few new enhancements! This tool now offers consumers the option to receive their Plan Documents (formerly known as Welcome Kits) electronically. This option is currently available through the AARP Medicare Supplement Online Enrollment tool within LEAN and not via paper applications.

UnitedHealthcare has also updated consumer billing options based on agent and consumer feedback. Consumers with requested effective dates of more than 30 days from the submission date will have the option to sign up for recurring Electronic Funds Transfer (EFT) withdrawals or monthly coupon payments. The one-time immediate EFT withdrawal will not be required from these consumers. Please note: consumers who request an effective date of less than 30 days from the submission date will be required to pay the first month's premium payment via EFT through their savings or checking account within 24 hours of their acceptance.

Along with these new enhancements, the AARP Medicare Supplement Online Enrollment tool within LEAN continues to:

• Offer the ability to see potential rates quickly and easily after entering basic member information.

- Provide streamlined steps which only show the necessary questions and forms for each applicant based on initially entered personal data.
- Allow you to view immediate application statuses of "accepted" or "pending" after selecting "submit" (status is shown on the confirmation page and on the view saved/submitted dashboard).

While AARP Medicare Supplement Online Enrollment is now accessible via LEAN, the tool is only available with an internet connection (no offline option yet). Signature pads and touch screens continue to be supported signature capture options.

#### **About AARP Medicare Supplement Online Enrollment**

The dynamic online tool generates an enrollment application based on the applicant's zip code, date of birth and Medicare Part B effective date. Based on this information, you are given a plan selection list with estimated rates for each plan. As you advance from screen to screen, the online enrollment application displays or skips over questions based on previously provided information, as applicable.

The tool also allows you to:

- Enroll, renew or verify AARP membership for the applicant.
- Fill out ancillary forms, such as the replacement notice, if required.

Note: One of these options must be chosen for the applicant to enroll.

- Save/resume an AARP Medicare Supplement enrollment application (up to 90 days).
- Review submitted AARP Medicare Supplement enrollment applications (up to 90 days).

You must provide the consumer with the full AARP Medicare Supplement enrollment kit, which includes the Centers for Medicare & Medicaid Services' Guide, *Choosing a Medigap Policy: A Guide to Health Insurance for People with Medicare*.

E-mail addresses are required for both the agent and consumer. The consumer is asked to provide consent to allow UnitedHealthcare to send important account information and product offers via email. If the consumer prefers not to consent, then you must submit a paper enrollment application and exclude the consumer's email address from the paper enrollment application.

#### How to Access AARP Medicare Supplement Online Enrollment

As mentioned above, you can now begin enrolling consumers for an AARP Medicare Supplement Plan through LEAN. Download the LEAN app from the App Store, Google Play Store or access it online at <a href="https://lean.uhc.com/prweb/PRWebLDAP2">https://lean.uhc.com/prweb/PRWebLDAP2</a>.

If you would like to resume a saved application or view a submitted application, select the "Save/Submitted Med Supp application" icon.

Online enrollment can be used on both tablets and computers, and it's compatible with the latest Internet browsers.

#### **Capturing Signatures**

The AARP Medicare Supplement enrollment application requires signatures to be captured from you and the applicant. To capture signatures, you must utilize a signature pad or touch device (tablet). Before you begin an online enrollment application, confirm that the consumer understands and is willing to sign the forms electronically via

signature pad or touch device. Note: A one-time installation of software is required for new Topaz signature pad users prior to using online enrollment. Please review the technical requirements document on how to download.

#### Electronic Plan Documents (New!)

Consumers now have the option to receive their Plan Documents electronically when applying through the AARP Medicare Supplement Online Enrollment tool within LEAN. (This option is currently not available for paper applications.) This electronic option gives consumers access to plan-specific documents for viewing, saving or printing. Documents include important information such as a Certificate of Insurance, an outline of plan benefits, hospital directory for AARP Medicare Select Plans, and *A Guide to Health Insurance for People with Medicare*.

Consumers will also have the ability to:

- view value-added services available in their area
- update their email and plan document delivery preference
- access information from any device

Consumers will still receive their health insurance card and a coupon book for payments (if it applies) through the U.S. Mail.

In the Review and Submit section of online enrollment, consumers will be asked to select how they would like their plan documents delivered – either via paper or electronically. If they choose the "online" option, they must agree to receive their plan documents electronically, instead of receiving paper copies through the U.S. Mail. When plan documents are available, the consumer will be notified by email and access to the documents will be provided through Member.UHCInfo.com.

The types of communications available electronically are subject to change. If additional types of communications become available for electronic delivery, the consumer will have the opportunity to select their delivery preference at that time. Occasionally, in addition to electronic delivery, they may also receive a hard copy document.

#### **Faxing Documents for Online Enrollment**

If you have additional documents (such as Legal or Guaranteed Issue documents) that are needed to process the online enrollment application, please fax in the required documents to the following fax number: **248-524-5747**. This fax number must only be used to provide additional documentation for applications submitted via online enrollment.

- A fax coversheet is provided on the submission confirmation page for your convenience.
- Please be sure to include the consumer's name, address and AARP membership number on the fax coversheet.
- Once you receive a fax receipt confirmation, please return original documents to the consumer or destroy copies in a secured manner.

### 4. Additional Selling Opportunities

(information within the Producer Compensation section of the 2016 Producer Handbook)

#### **Agent-Directed Employer Group Sales**

Agents can now offer AARP Medicare Supplement Plans to group retirees. Choose to be more hands-on with enrollment with group sizes up to 100, or simply let UnitedHealthcare take care of it for any group size.

In addition to more than 4 million individual AARP Medicare Supplement Plan members across the country, UnitedHealthcare provides retiree/spouse health insurance solutions to more than 1,400 employers nationwide.<sup>1</sup>

AARP Medicare Supplement Plans offer many benefits to employer groups including:

- Cost Savings Potential for cost savings compared to typical retiree coverage.
- Extra protection for retirees/spouses Medicare supplement insurance may protect retired employees from Medicare's co-insurance and deductibles. The plans are guaranteed renewable and provide coverage nationwide.
- Flexible contribution levels Employers have the freedom to cover all or a portion of the monthly premium costs for their retirees/spouses. Employers can also choose to endorse or apply a subsidy to specific plans.
- Administrative ease Employers will receive a single bill for all of the premiums due. Claims and billing of retirees/spouses (if applicable) are all handled by UnitedHealthcare.

For more information on eligibility for this opportunity to offer group sales and complete guidelines, please visit the agent portal.

For EDC agents: **UnitedHealthProducers.com** For ICA/ISR agents: **UnitedHealthAdvisors.com** 

AARP Medicare Supplement Insurance is not employer group coverage. It is group-association coverage issued to individuals.

<sup>1</sup> From a report prepared by UnitedHealthcare Insurance Company using internal data June, 2015.

NOTE: Medicare Select Plans are not compensation-eligible under the employer group sales model at this time. West Virginia commissions are paid for 5 years. Texas commissions are paid for 7 years. Please refer to your contract for complete details. Exclusions: Puerto Rico, Guam, Virgin Islands, and Northern Mariana Islands; riders in Minnesota and Wisconsin.

- Age 65 or older
- Under age 65 with certain disabilities
- Any age with End-Stage Renal Disease (ESRD permanent kidney failure requiring dialysis or a kidney transplant).

It pays for many health care services and supplies, but does not pay all health care costs. Medicare beneficiaries must pay for costs like coinsurance, copayments and deductibles, which are called out-of-pocket costs, or cost sharing.

## **Medicare Coverage Options**

Medicare beneficiaries can choose among the following options for their health care and prescription drug coverage:

1. Original Medicare, managed by the federal government, provides Medicare Part A and Part B coverage.

• Part A (Hospital Insurance) - Helps cover inpatient care in hospitals, skilled nursing facilities, hospice care and some home health care if certain conditions are met.

Part B (Medical Insurance) - Helps cover doctors' services, outpatient care, other medical services that Part A doesn't cover (like physical and occupational therapists), and some home health and preventive services.

2. Medicare Advantage Plans (Part C) - These

health plan options (e.g., HMOs, PPOs and PFFS) are approved by Medicare and run by private insurers. They provide insurance for hospital and medical services and, sometimes, prescription drug coverage. Out-of-pocket costs and cost sharing differ from Original Medicare and may depend on whether the beneficiary received services in or out of network.

#### 3. Medicare Prescription Drug Coverage (Part D) -

Medicare offers prescription drug coverage for everyone with Medicare (either Original Medicare or Medicare Advantage). Medicare drug plans are run by insurance companies

and other private companies approved by Medicare. Beneficiaries must enroll in and pay a separate premium for these plans.

People who need help deciding or have questions can do any or all of the following:

- Visit www.medicare.gov
- Call 1-800-MEDICARE (1-800-633-4227) or 1-877-486-2048 (TTY users)
- Contact their State Health Insurance Assistance Program.

## Medicare Supplement Plans

Beneficiaries who have Original Medicare may want to buy a Medicare supplement plan to help cover out-of-pocket costs. Generally, beneficiaries must have Medicare Part A and Part B to buy a Medicare supplement plan.

## Medicare Supplement Plans (continued)

#### What is a Medicare Supplement Plan?

Medicare supplement plans (also called Medigap) are private health insurance specifically designed to supplement and work only with Original Medicare. Private insurance companies sell Medicare supplement plans.

Medicare supplement plans help pay some of the coinsurance, copayments and deductibles ("gaps") in Original Medicare. They may also cover certain medical services Medicare doesn't cover. People who are enrolled in Original Medicare and buy a Medicare supplement plan will generally have 100 percent of their Medicare-approved health care costs covered (depending on the plan they choose).

Medicare supplement plans aren't Original Medicare or a Medicare Advantage plan because they're not a way to get Medicare benefits.

Medicare supplement plans are identified by letters (such as Plan C) except in Massachusetts, Minnesota and Wisconsin.

- Each Medicare supplement plan must offer the same basic benefits, no matter which insurance company sells it.
- Usually the differences between Medicare supplement policies sold by different insurance companies are the cost, underwriting criteria, extra services (value-added) and customer service.
- Medicare supplement insurance companies must follow federal and state laws.
- A Medicare supplement plan only covers one person. If a married couple wants Medicare supplement coverage, they must buy separate Medicare supplement plans.

#### **Plan Features**

Medicare supplement plans offer beneficiaries:

• Help with managing out-of-pocket costs

- The freedom to choose any doctor who accepts Medicare patients
- No claim forms to file
- National coverage so beneficiaries can use benefits anywhere in the United States. If beneficiaries move, their coverage moves with them, except Select Plans which may not be available everywhere
- Foreign travel coverage for emergency services (for most plans)
- Guaranteed renewability, meaning the plan automatically renews from year to year as long as beneficiaries pay their premiums when due
- A 30-day "free look" evaluation period. Full refund of premiums (minus claims paid, if any) if policies are returned within 30 days of plan issuance

For more information on Medicare supplement insurance, please review "Choosing a Medigap Policy: A Guide to Health Insurance for People with Medicare."

#### **Basic Medicare Supplement Benefits**

- Hospitalization: Part A coinsurance plus coverage for 365 days after Medicare Benefits end
- Medical Expenses: Part B coinsurance (generally 20 percent of Medicare-approved expenses) or copayments for hospital outpatient services. Plans K, L and N require insured beneficiaries to pay a portion of Part B coinsurance or copayments
- Blood: First three pints of blood each year
- Hospice: Part A coinsurance and respite care expenses (including applicable prescription copayments)

- Be residents of the state in which they are applying for coverage
- Be AARP members or live in the same household as someone with whom they share an AARP membership number (e.g., spouse)

However, no benefits will be paid for any period of a hospital stay that occurs prior to the Medicare supplement plan effective date.

 To receive benefits for a skilled nursing facility stay, the stay must follow a covered hospital stay. <u>Both</u> the hospital stay and the skilled nursing facility stay must start on or after the Medicare supplement plan effective date. #### **Underwriting Information**

#### **General Information**

- Who needs to be underwritten? Applicants outside of their open enrollment period and who do not qualify for guaranteed issue are underwritten to determine eligibility and rate (depending on the time since their 65th birthday or Medicare Part B effective date, if later).
- How long will it take to process the application if underwriting is needed? Generally, up to 10 business days. It may take longer if additional information is needed and the underwriter is unable to reach the applicant.
- What applications will be reviewed by an underwriter? All applications that need to be underwritten are subject to an underwriter's review.
- Does underwriting vary for different AARP Medicare Supplement Plans? No.
- What will happen if an applicant's health status changes after the enrollment application has been submitted and before it has been approved? All information discovered during the underwriting process will be used in making the final underwriting decision. This includes:
- responses to the health questions on the enrollment application, and
- any additional information that is obtained by the underwriter

Underwriters will consider all health history up to the date of their review when making the acceptance and rate decision. This includes changes that have occurred in the applicant's health history since the date they signed the application.

#### Eligibility Underwriting (Section 5 of the Enrollment Application)

- Can applicants be denied coverage? If applicants need to be underwritten, the only medical reasons for denial are:
  - End-Stage Renal Disease (ESRD)
  - Dialysis is required
  - Diagnosed with a kidney disease that may require dialysis
  - Admitted to a hospital within the past 90 days
  - Within the past two years a medical professional recommended or discussed as a treatment option any of the following that has not been completed:
  - · Hospital admittance as an inpatient
  - Organ transplant
  - · Back or spine surgery
  - Joint replacement
  - Surgery for cancer
  - Heart surgery
  - Vascular surgery

Everyone has the right to apply. Applicants can continue the application process even if they may not qualify.

- If an applicant was in the hospital overnight for "observation," is this considered "inpatient"? The applicant should contact the hospital and ask if they were admitted as an inpatient.
- If a doctor recommended or discussed one of the surgeries listed on the application and the surgery hasn't been completed, does it matter where the surgery will be done? No. The application does not ask where the surgery will be done. If a doctor recommended or discussed one of the surgeries in the two years prior to applying, the applicant is ineligible for coverage.

Note that Appendix I includes a glossary with short definitions of the medical conditions listed on the application. This may assist you if applicants are unsure about a listed medical condition.

Please ensure that the application has been completed in full. Material mistakes or incomplete responses on applications may subject applicants to re-evaluation of their rate or loss of coverage.

#### **Underwriting Information**

#### Underwriting to Set Rates (Section 6 of the Enrollment Application)

- When do applicants need to complete other medical questions in Section 6 of the application? If their effective date is 3 or more years since their 65th birthday (or Medicare Part B effective date, if it is later) and they do not qualify for guaranteed issue, applicants must complete the other medical questions on the application. This information is necessary to determine their rate.
- What about applicant's health history more than two years ago? The application asks if the applicant had, was diagnosed or treated for the medical conditions listed during the past two years only.
- What if the applicant's medical condition isn't listed on the application? A limited number of medical conditions (not <u>all</u> medical conditions) are listed on the application. Only medical conditions listed on the application are used to determine the applicant's rate. If the applicant is unsure if their condition relates to a condition on the application, they should check with their doctor.
- What if applicants are unsure about their medical conditions? If applicants are unsure about their medical conditions, their uncertainty should be noted on the application and submitted to underwriting for review along with available information.

Note that Appendix I includes a glossary with short definitions of the medical conditions listed on the application. This may assist you if applicants are unsure about a listed medical condition.

#### **Additional Information Required**

- What if additional medical information is needed?
  - The underwriter may contact applicants or their physician to clarify the information before reaching a decision.
  - In some cases, the underwriter may send a Medical Status Verification Request (MSVR) form to the applicant to take to their doctor to complete.
- What will happen if the underwriter is unable to reach the applicant? If unable to reach the applicant, the underwriter will provide a call back number. After several phone attempts, the underwriter will send a letter to the applicant and an e-mail to the agent. If the applicant does not call the underwriter back after the phone call attempts and written requests, their application will be withdrawn.
- Can the agent call the underwriter or the call center and provide the medical information needed? No. The underwriter can only speak to the applicant or their physician when there are any questions or information is needed about medical conditions.
- How will I know if an underwriter is waiting for additional information from the applicant? The underwriter will send a status e-mail to the agent. To ensure they receive these e-mail communications, agents should be sure to keep the most up to date e-mail address on the agent portal in the Manage Your Account section.

UNDERWRITING/RATES

Please ensure that the application has been completed in full. Material mistakes or incomplete responses on applications may subject applicants to re-evaluation of their rate or loss of coverage.

#### **Underwriting Information**

#### **Underwriting Decisions**

- How will the underwriter communicate a denial or rate-up decision? A letter will be sent to the applicant with the specific reasons. An e-mail will also be sent to the agent. No medical information will be contained in the e-mail. The agent may want to contact the applicant to discuss other options.
- What if the applicant does not agree with the underwriter's decision? Applicants will receive a letter from the underwriter if they are receiving a higher rate or are not eligible for coverage. Applicants (not agents) may appeal the decision following the procedures outlined in the letter.
- What if the agent has questions about the decision? The agent should first discuss the application with the applicant. The applicant may then contact UnitedHealthcare if they have questions by following the procedures in the letter they received.

#### How Agents Can Help

- What can agents do to ensure that underwriters have all the information they need to make a decision? Agents can help to ensure that the underwriting process is completed efficiently and quickly by:
  - In advance of their appointment, advising clients to be prepared to answer health questions in the event that their acceptance is not guaranteed. Applicants should:
  - understand the specific medical conditions for which they are taking medications
  - have information available about their medical conditions during the two years prior to applying and any pending treatment
  - contact their doctor to clarify any questions about their medical conditions or treatment
  - Ensure that the information provided on the application is accurate and complete. If the applicant is not sure they should check with their doctor.
  - Following up with the applicant if the underwriter needs additional information by ensuring that the applicant promptly returns phone calls or contacts their doctor when requested.
- Is there any other information that agents can provide to assist in the underwriting review? Any additional medical documentation (for example, medication list or other treatment information) that the applicant provides to the agent should be submitted with the application.

Please ensure that the application has been completed in full. Material mistakes or incomplete responses on applications may subject applicants to re-evaluation of their rate or loss of coverage.

### **Plan Change Situations**

The following charts outline the rating and underwriting requirements for insured members who want to change from one AARP Medicare Supplement Plan to another AARP Medicare Supplement Plan.

Insured members age 50 and over who are currently enrolled in an AARP Medicare Select Plan can change to any AARP non-select Medicare supplement plan without underwriting, regardless of the Select plan's effective date.

#### Insured Members Age 65 and Older

Rating and underwriting requirements vary based on the effective date of the insured member's current AARP Medicare Supplement Plan:

Current AARP Medicare Supplement Plan Effective Date		Rating Requirements	Submit New Paper Application?	
5/1/2010 or prior	Same as new sales (refer to Underwriting and Rate Summary Chart) <sup>1</sup>	Same as new sales (refer to Underwriting and Rate Summary Chart)	A new paper application is required for all insured members who want to change to a new plan.	
6/1/2010 or later	None <sup>2</sup>	Same rate level as current plan <sup>3,4</sup>	A new paper application may be submitted but it is not required. <sup>5</sup> Insured members may call customer service to request a plan change over the phone.	

If the current plan held is a Medicare Select Plan, no underwriting is required. Insured members do not need to answer health questions in Sections 5 or 6 on the enrollment application.

<sup>2</sup>Insured members do not need to answer health questions in Sections 5 or 6 on the enrollment application.

<sup>3</sup>Discounts for which the insured member is currently eligible will continue to apply, assuming no other changes have occurred that affect eligibility for the discount.

<sup>4</sup>If insured members are receiving an Enrollment Discount, advise them that they will continue to receive the balance of the discount program from the time they enrolled in the original plan.

<sup>5</sup>An application is required if changing to a Medicare Select Plan. Insured members do not need to answer health questions in Sections 5 or 6 on the enrollment application.

#### Insured Members Age 50 to 64

When an insured member turns age 65, they may plan change to any available plan during their Medicare Open Enrollment Period (that begins at age 65) without underwriting.

**Note:** Insured members will not receive an additional rate guarantee when switching from one AARP Medicare Supplement Plan to another.

UnitedHealthcare reserves the right to deny a plan change request. If insured members are denied a plan change request, they can remain with their current plan, with no effect to their current rates.

## Sales and Marketing Materials

A variety of AARP Medicare Supplement marketing materials are available to use for offering the product.

### Access

You can access the following materials through the **agent portal**. Agents can access the portal using one of the following addresses: <u>www.unitedhealthproducers.com</u> (for External agents) or <u>www.unitedhealthadvisors.com</u> (for Internal agents). Simply log in and from the menu select "Product Information and Materials," then "Sales Materials."

To access the **agent toolkit** after logging into the agent portal, select the "Product Information and Materials" tab, then select "Agent Toolkit" and the link will be listed at the top of the page.

## Enrollment Kits and Sales Materials

You can order and download state-specific enrollment kits, guides, additional enrollment resources and marketing materials on the agent portal. Once logged into the agent portal click on "Product Information and Materials," then "Sales Materials." Select the "click here" link to be directed to the Agent Materials Portal.

You can now personalize your enrollment kits to include your name, phone number and e-mail address which will be pre-printed on the back cover of your enrollment kits in the quantity you specify for each state in which they are ordered. All you have to do is select "Do you want to personalize this kit?" within your shopping cart prior to completing your checkout process. This great new feature is designed to help you better serve consumers, increase your exposure in the market, and grow your book of business.

**Important:** Enrollment kits are revised periodically to comply with state requirements and may change during the year. Therefore, we recommend that you order only a small quantity (e.g., a 2-month supply) of material at a time. It is your responsibility to ensure that you and your applicants are only using current materials. Agents may order a maximum of 50 enrollment kits per state, per week. Higher quantities must receive approval.

There are also numerous resources on the Agent Materials Portal, including occasional free material offers.

## **Sales Presentations**

The state-specific sales presentations are designed for agents to use at events such as formal sales events, seminars and during at-home appointments. Agents may personalize the sales presentation with their name and phone number on the cover slide and closing slide.

Sales Presentations are available on the agent toolkit in PDF format and are located at the following path: English Material > AARP Medicare Supplement > Sales Presentation.

## Lead Generation Materials

AARP Medicare Supplement approved marketing pieces can be used to:

- Generate leads
- Promote formal sales events
- Educate individuals about AARP Medicare Supplement Insurance Plans
- Create awareness of the services you provide as an agent

The **agent toolkit** is your online source for sales and marketing lead generation materials you can customize with targeted messages, then download for immediate use.

## Lead Generation Materials (continued)

A variety of materials are available, including ads, flyers and postcards, letters and brochures with an assortment of pre-approved options to choose from. Materials are categorized by language, then by product or theme and event. Many approved materials are available in both meeting and non-meeting formats.

You can customize these pieces with your own contact information and will have the option of ordering printed materials directly through the agent toolkit or downloading a high-resolution file and taking it to a print vendor of your choosing or print using your office printer.

Ordering materials from the agent toolkit is easy, simply:

- 1. Select Material: Select a folder based on which product you want to promote.
- 2. Customize and Preview: Information will be prepopulated based on your personal profile, including your name, address, phone, meeting information and picture. You can preview your proof and meeting information you provide prior to ordering.
- Order: For most materials, you will be prompted to either order printed materials or download an electronic version. Downloaded versions are free. For printed items, 8.5 x 11 and 6 x 9 pieces are the most cost-effective.

All marketing materials are reviewed and updated on an annual basis throughout the year. Agents should check periodically throughout the year and download or print the newer version of the marketing piece when available.

## **Promotional Items**

AARP Medicare Supplement-branded promotional items are great to use as giveaways at in-home appointments, seminars and other events.

You may purchase branded items, such as pens and note pads, on the UnitedHealth Group online e-store. You can find a link to the e-store on the agent portal under "Product Information and Materials," then "Sales Materials" and click the link "Go to Promotional Items." Once in the e-store, simply hover over UnitedHealthcare listed

on the top navigation bar, then select AARP Medicare Supplement from the drop down menu. All major credit cards are accepted. Additional items are added to the store throughout the year so check back frequently!

Distribution of gifts and promotional merchandise is subject to applicable state and federal laws and regulations. Please check the regulations issued by your state department of insurance, as laws and regulations can vary by state.

Agency names cannot be imprinted on AARP Medicare Supplement-branded promotional items.

## Sales and Marketing Materials Rules

Producers are prohibited from creating new or altering existing marketing materials for AARP Medicare Supplement Insurance Plans. Any material that states the product name or uses the AARP logo or name in any piece must be approved by UnitedHealthcare (UHC) and AARP Services, Inc. (AARP's wholly owned subsidiary), and in most cases, filed with each state. Therefore, you must only use sales and marketing materials provided by UnitedHealthcare to promote the AARP Medicare Supplement product. **You must not create your own pieces with the AARP Medicare Supplement name or logo.** 

The availability of sales and marketing materials varies by state. Materials are filed with each state and may take time to get approval. If no items are available, please check back frequently for approved materials on the agent portal and toolkit. The following guidelines apply when using AARP Medicare Supplement marketing pieces:

- Use only approved pieces.
- Verify that the piece has been approved in the state(s) you would like to market in. If you do not see a state listed in the toolkit or materials area of the portal, the piece is not approved for use in that state. Check back frequently, as states are added when approvals are received.
- Altering the pieces is prohibited (excluding the editable fields). You must not remove, edit, move or add information to the pieces. You may not make pieces smaller because each state's Department of Insurance requires a minimum font size.
- Common marketing materials may not be used in an e-mail campaign or posted to your website. Exception: E-mail campaigns are permissible with agent recruitment efforts. See approved material on the toolkit.
- You may not make cold calls as highlighted in the Branded Products Addendum (Exhibit B) in your contract. And you cannot follow up with your mail recipients to see if they received your mailing or flyer.
- Attaching business cards or labels of any sort with your contact information or other messaging to approved materials is prohibited. You may add your personalized contact information only where indicated on approved marketing pieces prior to downloading or printing material.

Please note that you only have access to materials for products in which you are fully trained and certified. **Distribution of materials to uncertified producers is strictly prohibited.** 

Producers who do not comply may face disciplinary action, including, but not limited to, termination of contract.

As a reminder, be sure to register all events, educational or marketing/sales, formal or informal, with the Centers for Medicare & Medicaid Services (CMS) in the event consumers may have questions on Prescription Drug Plans or Medicare Advantage Plans.

# The Authorized to Offer (A2O) Program

Through the Authorized to Offer AARP® Medicare Plans program (A2O), UnitedHealthcare recognizes agents who have met and continue to meet all certification standards, demonstrate competency on AARP Medicare Supplement Plans, insured by UnitedHealthcare Insurance Company, and serve AARP members' best interests. The program differentiates A2O agents by providing exclusive access to AARP-branded marketing materials.

The A2O program is split into levels that are generally defined by the underlying requirements:

**Level 0** An agent with an A2O **Level 0** status has not completed certification requirements for any AARP-branded product, therefore they are unauthorized to offer AARP Medicare Plans. A2O **Level 0** agent will not have access to marketing and enrollment materials for these products.

## Level 1 Available to all agents who have completed the A2O Level 1 requirements:

- Quality Production Minimums (QPMs)\*
- AARP 101 (Orientation) Training Course
- UnitedHealthcare Medicare Solutions Required Training and at least one AARP-branded product training course
- Community Service Attestation

#### Level 2 Available to those agents who have:

- Completed the A2O Level 1 requirements noted above with higher QPMs
- AARP 231 (Mature Markets) Training
- Completed all three AARP-branded product training requirements

\*OPMs are defined on page 25. Please review those details in addition to the highlights included on the next page.

#### **Quality Production Minimum Qualifications**

#### Level 1

From April through March of each year, agents must submit at least **five (5) accepted and paid sales\* of AARP Medicare Supplement Plans** to retain A2O Level 1 status. Agents who fail to attain the quality production minimum will be de-authorized from offering AARP Medicare Supplement plans for 90 days. As of 2014, active Level 1 agents with 100 or more AARP Medicare Supplement active members in their book of business at the end of the measurement period will not be de-authorized.

During the de-authorization period, submitted AARP Medicare Supplement enrollment applications will not be considered commission-eligible. De-authorization status will be displayed on the certificate page on the agent portal. Agents will be listed as Level 1 status on the agent portal during the de-authorization period.

If an agent does not meet the Level 1 quality production minimums for two consecutive years, he/she will be permanently de-authorized and will not be permitted to offer AARP Medicare Supplement Insurance Plans.

Note: You can continue to offer AARP®

MedicareComplete<sup>®</sup> and AARP<sup>®</sup> MedicareRx Plans, insured by UnitedHealthcare, during the de-authorization period.

#### Level 2

EDC and ICA agents who submit at least **thirty (30) or more accepted and paid sales\* of AARP Medicare Supplement Plans** and are certified to offer all three AARP-branded products (Medicare Supplement, Medicare Advantage and Part D Prescription Drug Plans) will be invited into A2O Level 2 status where they must complete one additional certification course to offer AARP-branded products called Mature Markets. Level 2 agents must maintain the Level 2 production minimum and certification requirements each year from April through March to continue using Level 2 materials.

ISR agents may complete the Mature Markets certification course for Level 2 status once they have

at least one AARP-branded product certification completed.

As of 2014, active Level 2 agents with 200 or more AARP Medicare Supplement active members in their book of business at the end of the measurement period will retain Level 2 status and will continue to have access to Level 2 A20 program materials.

#### Status

Agents can view their A2O status on the agent portal under Manage Your Account > Agent Information. See the field "A2O Level" to view your current A2O level.

#### Guidelines

For more information regarding marketing guidelines and A2O program rules, see the full A2O program guidelines, which can be found on the agent portal within the "Product Information and Materials" tab under "Authorized to Offer."

**Note:** Level 2 materials are for agents who have Level 2 A2O status. Qualified Level 2 agents may not share Level 2 materials with Level 0 or 1 agents. Materials must not be used to generate leads to be provided to Level 0 or 1 agents.

Program rules and quality production minimums are subject to change.

<sup>\*</sup>Sale must be commission-eligible. Sales that are not paid a commission include AARP Medicare Supplement Insurance Plan members switching from one plan to another AARP Medicare Supplement Insurance Plan and sales to consumers under age 65, where applicable. These sales will not count toward your quality production minimum. See your contract for details. Sale must also be paid with at least one month's full premium paid by the consumer. Note: Electronic funds transfer (EFT) payment must be applied to the account by March 31 for the premium to be considered paid.

## Enrolling Applicants

### **Enrollment Kits**

Enrollment kits are available for all producers who are certified by UnitedHealthcare to offer AARP Medicare Supplement Insurance Plans. The enrollment kits contain all of the materials necessary to complete a sale. It is important to deliver the enrollment kit in its entirety to the applicant, including when

submitting an enrollment application through the online enrollment tool, **Smart***Enroll*, found on the Distribution Portal.

Please verify you have current materials. Using outdated materials may cause a paper application to be delayed or rejected, or may cause you to quote an incorrect premium rate.

You can order enrollment kits by accessing the agent portal. Simply log in and click on "Product Information and Materials," then "Sales Materials." If you have an urgent need for a kit, you may download it from the agent portal while you await your order.

Remember to leave all items in the enrollment kit with the applicant except for items to be submitted to UnitedHealthcare if you opt to mail or fax the paper application.

### **Enrollment Applications**

**You must use the agent version** of the AARP Medicare Supplement application, which includes the code 2460720307 at the bottom of the first page of the paper application. Agent versions of the paper application are included in the enrollment kits available through the portal's "Product Information and Materials" section. If you opt to submit the enrollment application online, please be sure to use the online enrollment tool found within the agent portal and not the consumer-facing website (<u>www.AARPMedicarePlans.com</u>). For more detailed information about submitting an Online Enrollment application, please see the "Submitting an Enrollment Application" later within this section. If you do not use the agent application or you use it in combination with a direct-to-consumer application (e.g., direct mail), we will not pay commissions and the application may be denied.

Prior to filling out the application, you should:

- Confirm the applicant is or will be enrolled in Medicare Part A and Part B at the time coverage will be in effect
- Confirm the applicant is an AARP member
- Review plan options with the applicant and provide guidance to the plan that best fits his or her needs
- Indicate the applicant's plan selection and desired effective date on the application. If the applicant has current health coverage, please note on the application in the appropriate spot.

For more detailed information and a sample application with helpful hints about enrollment applications, please reference the AARP Medicare Supplement Application Guide which can be found on the agent portal.

Simply log in and click on "Product Information and Materials," then "Sales Materials."

### **Applicants Replacing Coverage**

#### **Replacement Notice**

Applicants who are replacing another Medicare supplement plan or a Medicare Advantage plan must submit the **Notice to Applicant Regarding Replacement of Medicare Supplement Insurance or Medicare Advantage (Replacement Notice).** Each state-specific enrollment kit and the online enrollment tool include a Replacement Notice, which must be signed by the applicant and the agent.

✓ If applicants are changing from one AARP Medicare Supplement Insurance Plan to another AARP Medicare Supplement Insurance Plan, the Replacement Notice is not required.

#### **Continuous Coverage**

Applicants who are replacing their existing Medicare supplement coverage should not cancel their coverage until they receive confirmation of acceptance, the new coverage's effective date, and notification of the final premium rate. When replacing an existing policy, applicants should request a plan effective date to coincide with the date existing coverage ends.

**Please note:** AARP Medicare Supplement Insurance Plan effective dates are always the first of a month.

For more information on effective dates, please refer to the section on effective dates under "Application Processing" of this Producer Handbook.

#### Replacing a Medicare Advantage Plan

Enrollment in Medicare supplement insurance does NOT automatically disenroll an applicant from a Medicare Advantage plan. Applicants should contact their current insurer or 1-800-Medicare to see if they are eligible to disenroll, and to disenroll if they are able. They may choose to disenroll from their Medicare Advantage plan with Rx coverage by enrolling in a standalone prescription drug plan if they are able to do so. Medicare Advantage and Medicare supplement coverage cannot overlap, and there should be no gap in coverage, so request a plan effective date to coincide with the date existing coverage ends.

### **Enrollment Checklist**

□ Dues are not deductible for income tax purposes.

#### **Electronic Funds Transfer (EFT) Discount:**

- Complete and submit the Automatic Payment Authorization form in its entirety if applicants want to pay future premiums by deducting their payment from their checking or savings account.
- When using the online enrollment tool, the initial premium payment is required through Electronic Funds Transfer (EFT). The initial premium payment is processed within 24 hours of the member being accepted. Subsequent monthly payments can be set up as recurring EFT payments or ongoing coupon payments via check.

**Note**: Electronic Funds Transfer (EFT) requests will be processed on the 5th of the month and may take one month (or more if a future effective date) to become active, depending upon date application is received and processed. If the member, who enrolled via a paper enrollment application, is accepted prior to the plan effective date, the first EFT payment will be drawn at the start of the plan effective date month.

#### Premium Check:

 Collect and remit for the first month's premium. (If the applicant is changing from one AARP Medicare Supplement Plan to another AARP Medicare Supplement Plan, do not send any money.)

- Make checks payable to UnitedHealthcare Insurance Company.
- Please print the applicant's full name on the memo line of the check.
- If submitting paper applications for two applicants in the same household, submit a separate check for each applicant.

## Replacement Notice: Complete and submit, if applicable.

As you advance from screen to screen, the online enrollment application displays or skips over questions based on previously provided information, as applicable.

The tool also allows you to:

- Enroll, renew or verify AARP membership for the applicant.
- Fill out ancillary forms, such as the replacement notice, if required.
- Sign up the applicant for Electronic Funds Transfer (EFT) for (either):

E-mail addresses are required for both the agent and consumer. The consumer is asked to provide consent to allow UnitedHealthcare to send important account information and product offers via email. If the consumer prefers not to consent, then you must submit a paper enrollment application and exclude the consumer's email address from the paper enrollment application.

#### **Capturing Signatures**

The AARP Medicare Supplement enrollment application requires signatures to be captured from you and the applicant. If you choose to complete an online enrollment application, signatures must be captured via a signature pad or touch device (tablet).

For complete instructions on how to use the **Smart***Enroll* Online Enrollment tool, as well as helpful tips, a demo video, technical specifications and FAQs, please refer to the agent portal.

#### **Faxing Applications**

You may fax your paper applications only if:

- Applicant is already a member of AARP and,
- There is no check with the application.

Although faxing is not encouraged, we can accept faxed applications for NEW applicants and documents related to recently submitted applications.

Faxed applications are handled in the same order as applications received by mail. There is no priority handling for faxed applications vs. mailed applications.

#### FAX Number: 1-888-836-3985

#### Things to remember when submitting applications:

- Use only one application submission method: If the same application is faxed and mailed, the application received second will automatically be denied.
- Create a separate fax transmission for each applicant. Do not combine multiple applications in the same fax, as this can result in a potential privacy sharing issue.

#### • Fax application pages in correct numerical order.

**Note:** It is not necessary to fax an application taken close to the end of the month. Simply complete the Requested Effective Date on the application and be sure the application is signed and dated prior to the Requested Effective Date.

## Application Processing

Once we receive an application, we scan it into our system. Typically, we process applications within 7 business days; however, the process could be quicker or slower depending on the completeness and accuracy of the application and the level of underwriting required.

Applicants should send their first month's premium with the application, and they must submit monthly payments to sustain coverage. If they submit an Automatic Payment Authorization form with the application, the electronic withdrawal will be set up for either the month after the application has been accepted or the effective month if later.

### **Effective Dates**

All coverage is issued effective the first day of the month and never before the Medicare Part B effective date.

#### No Effective Date on Paper Application

**Example:** If an application is received on 9/15, the effective date will be 10/1.

We suggest you always complete the Requested Effective Date since the application may be received after the first of the month.

#### **Requested Effective Date**

Applicants who would like to request a specific effective date should fill out the "Requested Effective Date" box on page 2 of the application. This date must be the 1st of a month.

Applicants can choose to have an effective date up to 90 days after the application is received and approved.

**Example:** If the application is received on 9/15, the requested effective date can be as late as 12/1.

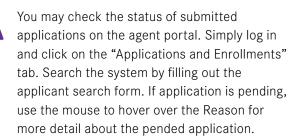

Enrollment applications submitted to UnitedHealthcare by the last day of a month, with effective date noted for the 1st of the following month, will be given that effective date assuming the application is complete, accurate and approved.

#### **Applicants Turning Age 65**

Applicants who will become eligible for Medicare at age 65 can submit their application up to 90 days before their 65th birthday month (for the coverage to become effective in coordination with their Medicare effective date). If we receive the application more than 90 days before the 65th birthday month, we will hold it until the effective date is within 90 days. All other applicants must wait to apply within 90 days of the requested effective date.

Applicants turning 65 and enrolling in Medicare Part B are eligible for waiver of pre-existing conditions and underwriting. See Open Enrollment for more information.

### **Application Status**

Producers without Internet access can obtain application status by calling the Producer Help Desk at 1-888-381-8581, and following the telephone prompts for "status of an enrollment" and "AARP Medicare Supplement."

### **Billing Options**

AARP Medicare Supplement plan holders have the following billing options:

**1. Electronic Funds Transfer (EFT):** Members may have their monthly premiums automatically deducted from their checking or savings account. This ensures that they never forget a payment.

**Note:** When using the online enrollment tool, the initial premium payment is required through Electronic Funds Transfer (EFT). Subsequent monthly payments can be set up as recurring EFT payments or ongoing coupon payments via check.

To put this payment method into effect, applicants need to fill out an Automatic Payment Authorization form (included in the enrollment kit) which can be submitted with the application. Applicants must keep a copy of the completed Automatic Payment Authorization form. The form can be submitted with the application and a check for the first month's premium.

Electronic Funds Transfer (EFT) processing occurs monthly on or about the **5th of each month**. **Note:** For online enrollment, the first month's premium will be withdrawn the next business day.

If a paper application is submitted with an Automatic Payment Authorization form but **does not include a check** for the first month's premium, the policy will be overdue until the first month's payment is submitted.

**Example:** A paper application is submitted on January 31 and accepted February 6 with a requested effective date of February 1 but no payment for the first month's premium was included. Because the application was accepted on February 6, which is past the 5th of the month, the Electronic Funds Transfer (EFT) will process on March 5 for one month's premium only, meaning the policy will be paid through February only and will continue to be past due until the initial premium payment is made. On April 5, the Electronic Funds Transfer (EFT) will draw one month's premium and apply it to March's premium.

If an application is submitted with an Automatic Payment Authorization form but includes **a check with an amount greater than the first month's premium**, the difference will be applied to the next month's premium.

**Example:** A paper application is submitted with a requested effective date of April 1, and the first month's premium is overpaid by \$15. On May 5, the Electronic Funds Transfer (EFT) will process for the May premium less \$15. On June 5, the Electronic Funds Transfer (EFT) will process for full June premium.

 Direct Bill/Coupon Booklet: Members may write a check each month and send it by mail using their coupon books, which they will receive after they have enrolled. Checks must be made out to "UnitedHealthcare Insurance Company." Payments should be mailed to the address listed on the coupon.

### **Billing Procedures**

Members will receive billing information for their account. Two individuals in a household who share an AARP membership number will receive one billing amount for the household.

However, if two members in a household would like to be billed separately or want separate bank accounts for Electronic Funds Transfer (EFT), they must have separate AARP membership numbers. Any multi-insured discounts\* (5%) that may be applicable to the household would no longer apply if there is a request to separate accounts for billing purposes.

If two individuals in the household have individual AARP membership numbers, the accounts can be combined under one membership number for billing purposes, if requested.

**Note:** Prior to requesting billing to be combined, members must contact AARP to merge AARP membership accounts.

\*Multi-insured discounts are not available in all states.

### **Member Claims Forms**

Most claims are filed with Automatic Claim Filing. This means most claims should be forwarded directly to UnitedHealthcare Insurance Company.

Manual claims should include the member's name, address and AARP Membership number on all documents being filed and can be mailed to:

UnitedHealthcare Insurance Company Claim Division P.O. Box 740819 Atlanta, GA 30374-0819
